Times are an approximation only and are calculated on the basis of an average speed of 9 km/h and an average time of 12 minutes to pass through a lock. Your speed, the flow of the water and the time it takes to go through locks will all affect your progress.

9 Maximum speed allowed on canals in km/h

There are no speed limits while in lochs, although please slow down as you pass moored boats, marinas, fishermen and when near the bank where your wash can cause damage to the bank and wildlife.
